👤 Professional Summary

Full-stack developer building TypeScript/JavaScript applications, REST APIs, and database-driven systems with Next.js, React, Node.js, Express, and MongoDB. Experienced in authentication, RBAC, API security, testing, Docker, and monorepo architecture through individual and team projects.

🧠 Technical Skills

Languages

TypeScript, JavaScript, C++

Frontend

Next.js, React, Tailwind CSS, shadcn/ui

Backend

Node.js, Express.js, REST APIs, JWT, RBAC, Zod

Database

MongoDB, Mongoose, MySQL, Redis

Testing

Vitest, Supertest, Cypress

DevOps

Docker, Nginx, Git, Linux

Libraries & Frameworks

TanStack Query, Redux Toolkit, Three.js, React Three Fiber, GSAP, Motion, Swagger/OpenAPI

AI-Assisted Development

ChatGPT, Gemini, Claude, OpenCode, Kimi Code, Open Code

🧰 Experience

20/04/2026 –
07/08/2026

Team Project Intern

Agnirath Aerospace and Defence Research Pvt. Ltd.

- Contributed to **MAGANAL**, a Mars rover R&D project involving **autonomous navigation, obstacle detection, environmental sensing, and terrain monitoring**.
- Collaborated on a **multidisciplinary engineering prototype**, translating requirements into functional components.

📁 Projects

CarePlus 🔗

Next.js · TypeScript · Express · MongoDB · Docker

- Built a **full-stack hospital ERP** covering patients, appointments, pharmacy, laboratory, billing, inventory, and staff workflows.
- Implemented **JWT authentication, RBAC, Zod validation, rate limiting, and audit trails**.
- Added **Vitest/Supertest testing, Swagger/OpenAPI, Docker Compose, and Nginx** for production-oriented infrastructure.

Video_Tube

React · Node.js · Express · MongoDB

- Built a video platform with **authentication, uploads, playback, likes, comments, subscriptions, and notifications.**
- Developed **REST APIs, media workflows, user interactions, and production deployment.**

Dukaan_Sathi

AI · Full-Stack · Hackathon Team Project

- Developed an **AI-assisted solution for practical retail/business workflows** in a team environment.
- Built features focused on **streamlining repetitive business operations through AI-assisted workflows.**

AnatomiaX

3D AI-Powered Anatomy Learning Platform | In Development

Upcoming project designed as an interactive 3D anatomy learning platform that combines immersive human-anatomy exploration with educational information and AI-assisted learning.

Achievement

Top 6 Finalist Team

Digontom Pvt. Ltd. Hackathon

Selected among the Top 6 finalist teams for final representation.

Education

2027	Diploma in Computer Science & Engineering <i>Brainware University</i> CGPA: 7.01 through 4th semester
------	--

EARLIER EDUCATION

2024	Higher Secondary (Class XII) 66% WBCHSE - ARTS
2022	Secondary (Class X) 46.71% WBBSE

Languages

- English, Bengali, Hindi
